

# Wordsmith – Workshop Essentials

## Equipment provided by musicians

- Electric bass guitar
- Shure Beta57A Vocal Mic
- AKG WMS450 Vocal Wireless Handheld Microphone System
- HP Envy Laptop w/ Beats Audio
- Roland SPD-5 sampling pad
- 1/8 Male to 1/4 Male Cord

Wordsmith has the ability to conduct workshops with a minimal amount of sound equipment adding to the versatility of the ensemble. Please note that where possible, it is preferable that the group be provided with the equipment on their concert rider. This will ensure a consistent sound and increase the options available to the musicians during workshops.

*For workshops embassies need to at minimum provide some type of drum kit and bass amp. Ideally, a full drum kit including throne, cymbals and rug should be made available. In larger rooms where amplification is necessary a PA and microphone should also be provided so Wordsmith can be heard. While not ideal, the Sampling Pad can be run through the bass amp when a PA system is not available.*
